KELETSO BELAFONTE RAMOTHIBE

Entry-Level Software Developer (Python) | BSc Information Technology Graduate
keletsoramothibe99@gmail.com | 063 464 8207 | Germiston, Gauteng

PROFESSIONAL SUMMARY

BSc Information Technology graduate and entry-level software developer who builds mainly in Python. Has built and deployed Python applications including ProofPath, a youth skills-verification platform for the FNB App of the Year Hackathon 2026, and ClearVue, a real-time sales reporting system using Pandas, Plotly Dash, Kafka and MongoDB. Entered Entelect Hack<IT> 2026 as a solo competitor. Currently a Deal Administration Executive Intern in the SABC Sales-Deal division, where accuracy and consistent rule-following are part of daily work. Completed the CAPACITI AI Skills Acceleration Programme and the FNB App Academy. Seeking a junior software developer role.

TECHNICAL SKILLS

- **Python:** Object-Oriented Programming (OOP) • file handling • error handling • Flet • Flask • Pandas • NumPy • Plotly Dash • requests • REST APIs • JSON • automated rule checks
- **Other Languages:** SQL • C# • Java • C/C++ • JavaScript • TypeScript
- **Web & Software Development:** HTML5 • CSS3 • React • Next.js • Windows Forms • ASP.NET
- **Databases:** MongoDB • SQL Server • MySQL • Firestore • MS Access
- **Cloud, AI & Tools:** Microsoft Azure • Firebase • Render • Vercel • Netlify • Git • GitHub • VS Code • Generative AI • Prompt Engineering • MATLAB • Microsoft 365
- **Soft Skills:** Problem Solving • Attention to Detail • Communication • Team Collaboration • Adaptability • Continuous Learning

WORK EXPERIENCE

Deal Administration Executive Intern — *October 2026 – Present*
South African Broadcasting Corporation (SABC), Sales-Deal Division

- Complete SABC training and work in the Sales-Deal division, loading clients' advertising deals into the SABC system from signed deal agreements.
- Capture contract terms accurately, including the amount paid, the SABC channels the client selected, and peak or off-peak airtime.
- Calculate applicable discounts in line with company policy.

SELECTED PROJECTS

ProofPath — Verified Skills Platform for Youth Employment — *2026*

- Designed, built, tested and deployed a Python (Flet) platform for the FNB App of the Year Hackathon 2026, where a real business reviews submitted work and verifies a young person's skill.
- Built the domain with object-oriented Python (dataclasses and enums for Skill, MicroChallenge, Submission and Account) with validation inside the methods.
- Modelled three independent state machines (skill trust level, challenge status, submission status) and role-based route guards for youth and business accounts.
- Implemented salted scrypt password hashing with constant-time comparison, and wrote 34 automated rule checks covering the trust and challenge rules.
- *Technologies:* Python, Flet, JSON storage, Render | github.com/kl99-chi/proofpath

ClearVue Sales Reporting System — *2025, team of 7*

- Helped replace an MS Access setup with a real-time NoSQL reporting dashboard for sales, customer, supplier and inventory analytics.
- Integrated MongoDB, Apache Kafka, Pandas, Plotly Dash and Flask; deployed the application to Render.
- *Technologies:* Python, Pandas, Dash, Flask, MongoDB, Kafka, Render | Live demo

Entelect Hack<IT> 2026 — Photospheria Ecosystem Optimisation — *2026, solo*

- Competed individually, solving a tick-based ecosystem optimisation challenge across four escalating difficulty levels.
- Developed deterministic Python solution generators and used iterative heuristic optimisation and evaluator feedback to improve strategies under strict per-tick action limits.

Flet Weather App — *2026, FNB App Academy*

- Built a phone-sized Python app that calls the OpenWeatherMap API, handles errors (unknown city, bad key, no network) and keeps the API key out of the code using environment variables.
- *Technologies:* Python, Flet, requests, python-dotenv, Render | Live demo

CareerPilot AI — *2026, solo*

- Built an AI career assistant for email generation, company research, task planning, coaching and application tracking, with human oversight and AI-content disclaimers.
- *Technologies:* React, TypeScript, Tailwind CSS, Framer Motion, Lovable AI | Live demo

NWU Exchange App — *2025*

- Extended a hackathon prototype into a full-stack student marketplace with Firebase Authentication, Firestore security rules, Next.js API routes and signed ImageKit uploads.
- *Technologies:* Next.js, Firebase, Firestore, Vercel, ImageKit | Live demo

Awesome Athletics Club (AAC) Management System — *2025, group leader*

- Led development of a desktop app for club members, events, merchandise, bookings and reporting, with layered architecture and database validation.
- *Technologies:* C#, ASP.NET, Windows Forms, SQL Server/MS Access, Git

PROFESSIONAL DEVELOPMENT

CAPACITI AI Skills Acceleration Programme — *3 – 7 August 2026*

- Trained in AI fundamentals, AI productivity tools, prompt engineering and responsible AI; earned the Google AI Essentials Professional Certificate and completed Microsoft Azure Fundamentals modules.

FNB App Academy 2026 — Johannesburg Business School, University of Johannesburg — *2026*

- Covered a Python masterclass, object-oriented programming (OOP), file handling and error management, Kivy mobile UI, and connecting apps to real-world data through APIs, plus digital entrepreneurship and work readiness. Finished with a capstone app build and presentation.

EDUCATION

Bachelor of Science in Information Technology — North-West University | 2023–2025 | Overall Average: 66.82%
National Senior Certificate — Lethukuthula Secondary School | 2018–2022 | Overall Average: 65%

CERTIFICATIONS & HACKATHONS

- Entelect Hack<IT> 2026 — Certificate of Participation, 12 September 2026
- Microsoft Azure AI Fundamentals — Microsoft, 26 August 2026
- Google AI Essentials Professional Certificate — Coursera, 5 August 2026
- Java (Basic) Certification — HackerRank, 20 June 2026
- MATLAB Onramp — MathWorks, 5 March 2026
- Machine Learning Onramp — MathWorks, 23 January 2026
- GEEKULCHA NWU VPC Internal Hackathon — Certificate, August 2025
