

KELETSO RAMOTHIBE

keletsoramothibe99@gmail.com | 0634648207 | Germiston | [LinkedIn](#)

PROFESSIONAL SUMMARY

Recent BSc IT graduate from North-West University with hands-on experience in full-stack development, SQL databases, and network troubleshooting. Built a C# desktop system and co-developed a Firebase web app during a campus hackathon. I am comfortable working across multiple programming languages, continuous learning through independent technical certifications, and translating technical solutions effectively. Seeking a junior IT/developer role in a setting where I can solve real-world problems.

SKILLS

- Software & Programming: Proficient in Python, C/C++, C#, Java, HTML + CSS, JavaScript, and SQL.
- Web & Application Development: Windows Apps and Web Development integrated with Database Management Systems.
- Data Structures & Algorithms: Strong foundation in Object-Oriented Programming (OOP).
- Computer Networks: Experience with network simulation, configuring routers, and switches using Cisco Packet Tracer.
- IT Infrastructure: Network and hardware troubleshooting.
- Data & Machine Learning: Foundational knowledge in MATLAB programming, data analysis, visualization, and Machine Learning concepts.
- Mathematics: Intro to Algebra & Calculus, and Discrete Mathematics.
- Statistics: Descriptive and Inferential Statistics principles.
- Multilingual Communication: Proficient in English, Sesotho, IsiZulu, and Setswana.
- Collaboration & Problem Solving: Proven ability to work under pressure and collaborate effectively in fast-paced environments, such as hackathons.

EDUCATION

Bachelor of Science in Information Technology

North-West University (Overall Ave: 67%)

2023 – 2025 | Completed

National Senior Certificate

Lethukuthula Secondary School (Overall Ave: 65%)

2018 – 2022 | Completed

PROJECTS

Awesome Athletics Club (AAC) Management System - North-West University

2025

A full-stack web application for managing an athletics club — member account creation/login, training slot booking, event listings, a merchandise store with cart and payment checkout, support services, and admin-side reporting and record maintenance. Built with a layered architecture and SQL Server.

Role: Group Leader

Key Learning: I learned how to implement a layered architecture design principles in a desktop environment using Visual Studio 2022 as an IDE to manage the project, design user interfaces, and debug code.

Skills: Tools: Visual Studio 2022, .NET Framework / .NET Core, Windows Forms Designer, SQL Server. Skills: C# programming , GUI Design , Relational Database Management (DBMS) , Data Reporting & Validation.

NWU Exchange App - North-West University

2025

A convenient platform for buying, selling, and trading items between NWU students. Frontend-only web app built during the NWU Internal Hackathon using Firebase Studio.

Role: Group member

Key Learning: I learned how to streamline a project scope to deliver a minimum viable product under tight deadlines and how to manage client-side state without a traditional backend using Firebase and Vercel.

Skills: Tools: Firebase Studio , Vercel (for deployment) , Git/GitHub (for version control. Skills: Frontend Web Development, Cloud Database Integration , Rapid Prototyping, UI/UX Responsive Design.

ClearVue Sales Reporting System - North-West University

2025

A real-time NoSQL sales reporting system built for a client brief (ClearVue Ltd.), replacing a legacy MS Access setup. MongoDB stores sales, customer, product, and supplier data as flexible collections; Kafka streams new transactions in as they happen; Python (Pandas) handles data visualization.

Role: Group Member

Key Learning: Query optimisation is manual in NoSQL, Business date logic is deceptively complex, Data migration is most of the work, Technology is half the solution.

Skills: MongoDB, Kafka, Python Pandas Plotly, Dash.

AWARDS & SHORT COURSES

23 January 2026 Machine Learning Onramp — MathWorks

5 March 2026 MATLAB Onramp — MathWorks

20 June 2026 Java (Basic) — HackerRank
