

KELETSO RAMOTHIBE

keletsoramothibe99@gmail.com | 0634648207 | Germiston | [LinkedIn](#)

PROFESSIONAL SUMMARY

Recent BSc Information Technology graduate from North-West University with hands-on experience developing full-stack applications, cloud-based solutions, and data-driven dashboards. Skilled in C#, Python, JavaScript, SQL Server, MongoDB, Firebase, Next.js, and Dash, with experience independently deploying applications to the cloud. Passionate about building scalable software solutions and eager to contribute as a Graduate Software Developer, IT Graduate, or Junior Developer.

TECHNICAL SKILLS

Programming Languages

• Python • C# • Java • C/C++ • JavaScript • SQL

Web & Application Development

• HTML5 • CSS3 • Next.js • Dash • Flask • Windows Forms • .NET

Databases

• MS Access • MySQL Server • MongoDB • Firestore

Cloud & Dev Tools

• Firebase • Render • Vercel • Netlify • Git • GitHub • VS Code • Visual Studio 2022 • Cisco Packet Tracer

Data & Analytics

• Pandas • Plotly • MATLAB • Machine Learning Fundamentals

Microsoft Technologies

• Word • Excel • PowerPoint • Outlook • Microsoft 365

Soft Skills

• Problem Solving • Team Collaboration • Communication • Adaptability

EDUCATION

Bachelor of Science in Information Technology

North-West University

Overall Average: 66.82

2023 – 2025

National Senior Certificate

Lethukuthula Secondary School

Overall Average: 65%

2018 – 2022

PROJECTS

Awesome Athletics Club (AAC) Management System – 2025

Developed a desktop application for managing athletics club members, events, merchandise, bookings, and reporting using a layered architecture.

Key Contributions

- Led the development team throughout the project.
- Implemented layered architecture using C# and SQL Server.
- Designed database interactions and reporting features.

Technologies: Visual Studio 2022, .NET, Windows Forms, MS Access, C#, Data Reporting & Validation, Git.

NWU Exchange App – 2025

Developed a marketplace platform enabling NWU students to buy, sell, and trade items securely.

Key Contributions

- Extended the hackathon prototype into a full-stack application.
- Implemented Firebase Authentication.
- Designed Firestore security rules.
- Integrated ImageKit for secure image uploads.

Technologies: Firebase, Firestore, Vercel, Firebase Auth, Next.js API Routes, UI/UX Design, Git, ImageKit.

GitHub: <https://github.com/kl99-chi/nwu-exchange-app>

ClearVue Sales Reporting System – 2025

Developed a real-time business intelligence dashboard for sales, customer, supplier, and inventory analytics.

Key Contributions

- Built interactive business intelligence dashboards.
- Integrated MongoDB, Kafka and Plotly Dash.
- Independently deployed the application to Render after project completion.

Technologies: Python, Dash, Flask, Pandas, Plotly, MongoDB, Apache Kafka, Render, Git, GitHub.
